Serial Number: 10/747703 Attorney's Docket #: 12406-1200001/P2001,0463USN
Filing Date: 12/29/2003; foreign priority to 6/29/2001

Applicant: Brunner et al.

Examiner: Alexander Williams

This application is a continuation of application # PCT/DE02/01514, filed 4/25, 2002.

Applicant's Amendment filed 10/26/07 to the election with traverse of species I (claims 1, 2, 3, 7, 14 and 15), filed 10/5/05, has been acknowledged. Applicant's amendment has added to the claims several non-elected species elements into the claim structure for continued prosecution of this application.

This application contains claims 4-6, 8-13 and 16-86 drawn to an invention non-elected with traverse.

Claim 3 has been cancelled.

Claims 1, 2, 7, 14, 15 and 87 are allowed.

REASON FOR ALLOWANCE

The following is a statement of reasons for the indication of allowable subject matter:

As to independent claim 1, the prior art of record fails to show the combination recited in any of the claims. In particular, the prior art of record fails to show or collectively teach a surface-mounting radiation-emitting component, comprising: a leadframe and a radiation-emitting chip mounted on said leadframe; a molding material encasing said leadframe and said radiation-emitting chip, the molding material having a shape defining a mounting surface of the component, said mounting surface extending at a first predetermined angle, said first predetermined angle having a value lying within a range from 0

Art Unit: 2826

degrees to 20 degrees relative to a main emission direction of the component, said molding material having a shape defining a curved surface in the main emission direction; said leadframe having leadframe connections, wherein said leadframe connections protrude out of said molding material and have connection surfaces which enclose a second predetermined angle with said mounting surface, said second predetermined angle having a value lying within a range from 70 degrees to 90 degrees.

Applicant's arguments provide reasons for allowance.

This application is in condition for allowance except for the following formal matters: This application contains claims 4-6, 8-13 and 16-86 drawn to an invention non-elected with traverse. A complete response to the final rejection must include cancellation of non-elected claims or other appropriate action (see 37 CFR § 1.144 & MPEP § 821.01).

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
